

*Cheri Buchholz, Board Member*

*Cheri has a deep appreciation of the role the military has played throughout American history. As a volunteer with the Ozaukee County Historical Society and the Luxembourg American Cultural Society (both in Wisconsin) she continues to be a student of history. This perspective gives her a special appreciation for our young men and women who continue the long tradition of volunteering to protect our country.*

*Cheri is a wife of thirty-five years to Allen, a mother a grandmother and an entrepreneur as well. She is a welcome addition to the Trees From Home Board bringing her skills honed in volunteering for her church and local schools.*

*Cheri put it best when she said: "I am honored to be a part of the Trees From Home Board, it gives me the opportunity to let the men and women who give us our freedoms know that we are thinking about them, especially at the holidays."*
